

# GLACIAL ROCK DUST

## 100% CANADIAN GLACIAL MORINE

### AVAILABLE SIZES:

1.1 lbs	4.4 lbs	22 lbs	50 lbs
---------	---------	--------	--------

GAIA GREEN ORGANICS Glacial Rock Dust is mined from a piedmont glacial moraine in British Columbia, Canada. It is a source of natural minerals that plants may need to thrive. This product can be used on farms, home gardens, and landscapes, for a full range of plant types.

### DERIVED FROM:

Glacial moraine.

### BENEFITS:

- Finely ground rock dust from glacial moraine helps to re-mineralize soil.
- An excellent source of magnesium, iron, manganese, and trace elements.
- Helps improve soil structure, moisture retention, drainage, and cation exchange capacity.
- Provides essential plant minerals to optimize conditions for tolerance to abiotic stress.
- Enriches compost with valuable trace elements.

### GUARANTEED ANALYSIS:

Magnesium (Mg)	0.9%
Iron (Fe)	3.8%
Manganese (Mn)	0.05%

GAIA GREEN ORGANICS Glacial Rock Dust is approved for use in organic agriculture by California Organic Input Material (OIM) Program (in compliance with the California Fertilizing Materials Law and Regulations and the USDA National Organic Program Standards). GAIA GREEN ORGANICS Glacial Rock Dust is approved for use in organic agriculture by the Organic Materials Review Institute (OMRI) (in compliance with the USDA National Organic Program Standards).
