Soil & Plant Supplement

REV Is An Organic Humic Concentrate That:

- Increases Bloom & Fruiting of Plants
- Increases Rootmass and Nutrient Uptake
- Increases Fertilizer and Chemical Effectiveness
- Improves Flower Color Vibrance
- Improves Soil Biology
- Improves Water Retention

DIRECTIONS FOR USE: SHAKE WELL BEFORE USING.

For even better results, apply with a fertilizer application.

Flowers, Vegetables & Container Plants	1 – 2 tablespoons liquid per 1 gallon of water. Drench plant for both root and foliar treatment.
Pre-Planting Soil Treatment	1 – 1.5 cups per 5 gallons of water treats 20 linear feet of row.
Seed Inoculation	Use a 50:50 mix of REV and water. Spray seed. Plant when dry.
Hydroponics & Aquaponics	2 tablespoons per gallon of water.
Trees & Shrubs Established	½ cup liquid per gallon of water per 1" of tree diameter.
Trees & Shrubs Transplanting	½ cup liquid per gallon of water. Use double for bare root.
Warm & Cool Season Grass	½ to ¾ cup per 1,000 square feet.

WARNINGS

KEEP FROM FREEZING and BELOW 120°F.

Store in a cool, dry place.

Keep out of reach of children. Although non-toxic, do not drink.
